FEATURED PRESENTATION – “The Servant Leader: The True Essence of Leadership”

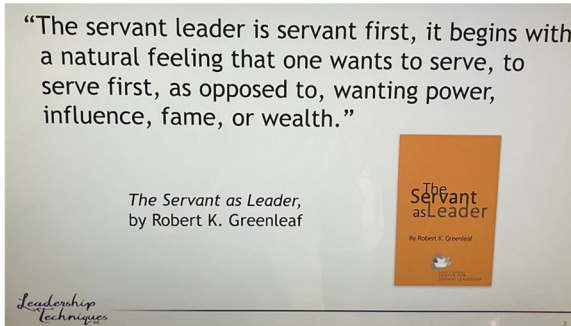

Speaker: David B. Newman & Lisa Hammer

David and Lisa opened with discussion about the new exam makeup: it's 42% people, 50% process, and 8% business

The Servant Leader (continued)

Lisa and David focused on two questions:

How do you serve as a leader without having people take advantage of you?

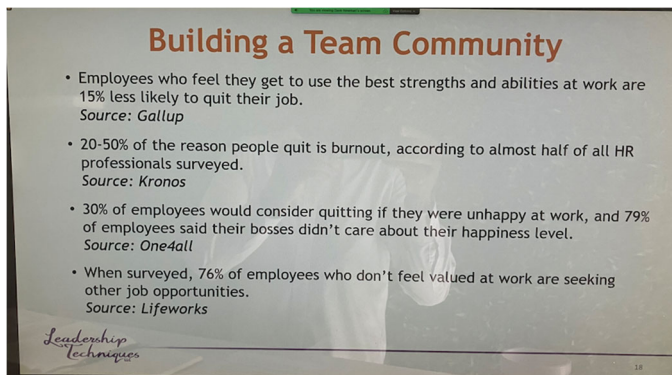

They spoke about leaders sharing power is often tricky, and that delegation is growing our teams to be better.

How do you get results through service to others?

The speakers referenced Tuckman's model of forming, storming, performing, norming, and adjourning to build trust and get results from others.

They also shared that the concept of servant leadership is an umbrella as a powerful metaphor to strengthen your team.

Lisa and David shared that their happiness as PM's is when they are able to share their experiences and project knowledge.
